

## Online astronomy workshop for informal educators

Do you work in a park, summer camp or a nature interpretation centre? Would you like to become more familiar with the sky in order to organise more astronomy activities with your group?

Then this workshop is for you!

- When?** May 14th to June 1st 2012 (about 3 hours of personal work each week)  
**Where?** Everywhere you have access to high speed internet!  
**How much?** It's free! All you have to do is go to our website to register.  
**How?** There will be a weekly live videoconference where you will learn about many astronomy topics. You will also have activities to do on your own and you will be able to interact with others using the forum.

[www.discovertheuniverse.ca](http://www.discovertheuniverse.ca)

### At the end of this workshop:

- You will be able to recognize the summer constellations in the sky.
- You will know how to use a starfinder and planetarium software like Stellarium.
- You will be more familiar with many astronomy concepts.
- You will have discovered many activities and tricks to make your astronomy events more alive.
- You will have developed a constellation tour that is ready to use with your audience.
- And even more!

## Come discover the Universe with us!
